**GARLI-EZE® HIGH ALLICIN
 BUFFERED GARLIC GRANULES
 (Patent Pending)
 CERTIFICATE OF GUARANTEE**

PRODUCT INFORMATION:

NAME Garli-Eze® *High Allicin Buffered* Garlic Granules 10000 Allicin

ITEM NUMBERS GE 10000 G

PRODUCT ATTRIBUTES:

PARTICLE SIZE (*U.S. Screens*)

On 20 none
 Thru 100 25% max.

METHOD

A.D.O.G.A.

NUTRACEUTICAL CONTENT

Allicin Yield (mcg/g) 10,000 HPLC 1485

Alliin (mcg/g) 22,000 HPLC 1485

MOISTURE 6.0 % max. A.O.A.C. Official Method 964.22

pH 7.0 to 7.2

MICROBIOLOGICAL

A.O.A.C. Official Method

APC 50,000 / g 990.12

Yeast & Mold <100 / g 997.02

E. Coli Absent 991.14

Coliform <10 cfu/g 998.08

Salmonella Negative/375 g 960801

Listeria Negative/25 g 960701

PESTICIDES/HEAVY METALS

Nutra Products nutraceutical garlic is randomly selected & tested for pesticides using a FDA/PAAM Method (commonly referred to as the Luke Procedure). The results of the screened compounds showed compliance with the pesticide list and tolerance levels approved for use in California. The pesticide list and tolerance levels are published by the California League of Food Processors. Individual lots were also screened for heavy metals using a Food Chemical Codex procedure. The screen included nine heavy metals: antimony, arsenic, bismuth, cadmium, copper, lead, mercury, silver, and tin. No heavy metals were detected.

PACKAGING

Garli-Eze is packaged in 50 pound cartons.

RECOMMENDED STORAGE

For proper storage, containers should be stored in a cool, dry place with liner tightly sealed. Shelf life is guaranteed for two years from date of shipment when stored in original, unopened container at <70°F (21° C) and <65% relative humidity.

COUNTRY OF ORIGIN

United States and China.
