### **SUZANNE FRANK ADAIR, Ph.D.**

Dr. Adair is presently a consultant to the pharmaceutical and biotechnology industry in the area of clinical research and development.

Dr. Adair had previously been Associate Director at Biocine Clinical Research, Chiron Corporation, Emeryville, California. In this capacity, she functioned as Clinical Team Leader for various investigational vaccine products studied under INDs. Dr. Adair actively participated in the development of a growing clinical research department in a young and upcoming biotechnology company.

Prior to joining Chiron in 1989, Sue was Associate Director in Clinical Research at CIBA-GEIGY, Summit, NJ (12 years) and, previously, taught at the Rutgers University College of Pharmacy as Assistant Professor (3 years). Dr. Adair received a BS in Pharmacy from the University of Wisconsin and a Ph.D. in Pharmaceutical Sciences from the University of California, San Francisco.

Dr. Adair has also been active in various professional organizations including:

American Association of Pharmaceutical Scientists,

(past Chair, Clinical Sciences section);

American Association of the Advancement of Sciences

(past Member-at-Large, Pharmaceutical Sciences section);

American Society for Clinical Pharmacology and Therapeutics

(past member of the Membership Committee);

Northern California Pharmaceutical Discussion Group (past Chair).
